The destruction of healthcare facilities in Ukraine as a Russian crime against humanity

Speaker – Nataliia Hirna

PhD, Associate professor

Lviv, Ukraine

After Russian rocket attack on maternity hospital

Destroyed healthcare facilities

- **163** – hospitals completely destroyed
- **815** – damaged by 50-90%
- **596** – pharmacies completely destroyed
- **650** – ambulances were destroyed or burned after rocket attacks

- **160** medics died on the job while providing care to patients

As on March 2023

Doctors in the ruins of the hospital

Reality and forecasts

Reality

- impossibility to visit a family doctor or get help online
- increase in heart attacks and strokes among people ages 40 -45
- complicated laboratory tests, planned operations, supportive therapy
- a decrease in number of screenings, so oncology is diagnosed at late stages

Perspectives

- increase in lung diseases, tuberculosis due to staying in dark, cold, wet rooms and unbalanced diet
- 14 million Ukrainian need psyhological help
- increasing self-medication, abuse of painkillers and sedatives

Stop Russian crimes against humanity !
